#### Schaffner & Marx Clothes Are Hart Made to Fit

There are some men who think the fit of clothes depends on measurements; they have to pay a good price for thinking

But we've learned that fit depends more on scientific designing, tailoring and lines drawn for the average figure.

VARSITY FIFTY FIVE SUITS are made to fit; and the fact that so many of the most critical young men choose them and wear them is evidence that they're right, in fit, in fashion, in tailoring, in all wool quality of fabrics and in fair prices.

You'll get extreme values at \$18 to \$25; its a sensible price when you see the clothes. Come and see them.
